

MIDDLE SCHOOL February 2019						
<b>Chemistry</b>		AWARDS				
Shelby Kline	Finding the right ratio of sugar to corn syrup in marshmallows			3		
Grace Dorion	Which semi-permeable membrane will allow iodine to react with a starch solution the fastest?	1				
<b>Environmental Science</b>						
Elizabeth Eisinger	Human Impact of Microplastics in Beach Sand	1				
Sophia Paris	Effects of Sunlight and Carbon Dioxide on Temperature		2			
<b>Botany/Microbiology</b>						
Nia Taylor	The Effect of Medicine on Yellow Mustard Seeds			3		
Ransom Edwards	What Substrate is the Most Effective for Lima Bean Germination		2			
Anabella Platt	Wheat Genetics: Ancient Wheat vs Modern Wheat DNA Comparison	1				best in show consideration
<b>Social and Behavior</b>						
Bella Johnson	Using the McGurk Effect to Identify Auditory and Visual Differences between Genders	1				SCISA consideration

<b>Physics</b>						
Sophia Haroutunian	Absorbtion of Heat with Light and Dark Pigmented Solar Ovens			3		
AJ Franseen	What Geometric Shape is the Strongest Against Earthquakes?		2			best in show consideration
John Platt	Magnetic Fields Part One: "Magnets & Eddy Currents" Part Two: "Magnetic Motion"	1				best in show consideration
Ella Boorum	Testing the Effects of Light Color on the Tracking Rate of a Bristlebot				HM	
<b>Zoology, Health, Medicine</b>						
Aden Parsick	Does the Temperature of Water Effect the Respiration Rate of Goldfish?	1				TIE
Addison Luckasevic	Testing the Effects of Stop Speed and Vision on Dizziness				HM	
Jackie Sullivan	How Do Antibiotics Effect Anerobic Bacterial Growth from <i>Felis domesticus</i> ?	1				TIE
<b>BEST IN SHOW</b>						<b>SCISA</b>
1st:	Anabella Platt	Wheat Genetics: Ancient Wheat vs Modern Wheat DNA Comparison				Biological Science
2nd:	John Platt	Magnetic Fields Part One: "Magnets & Eddy Currents" Part Two: "Magnetic Motion"				Physical Science
3rd:	AJ Franseen	What Geometric Shape is the Strongest Against Earthquakes?				General Science
